 Hipodromo, Cebu City, Cebu

My experience provides a strong foundation in full-stack development, with a continuous focus on improving and expanding my technical skills, particularly in building scalable backend systems, designing RESTful APIs, and working with modern development tools.

EDUCATION

University of Cebu - Main Campus Cebu City
Bachelor Science of Information Technology

WORK EXPERIENCE

Alliance Software Inc. Cebu City
Student Trainee Feb 2024 - Jun 2024

- Developed an end-to-end Hotel Booking System using ASP.NET MVC and C#, enabling streamlined booking and user management processes
- Collaborated with frontend and design team members, improving UI consistency and overall user experience
- Contributed to backend development and system integration, supporting smooth feature functionality across the application

Fullscale Inc. Cebu City
Intern Feb 2025 - Jun 2025

- Delivered backend and frontend features using C# and Next.js, supporting timely completion of sprint goals and improving feature rollout consistency
- Diagnosed and resolved bugs across the application, improving system stability and reducing recurring issues during testing cycles
- Collaborated with cross-functional team members to align on project updates, ensuring smoother development workflow and on-time task delivery
- Contributed to real-world application development using C# and Next.js, strengthening end-to-end feature implementation from backend to UI

Bridgeculture Inc. Cebu City
Full Stack Developer Feb 2023 - Jun 2026

- Developed ~50–60% of core features for BC Workflow and Cyzennt Workflow, contributing directly to system functionality and deployment readiness
- Implemented unit, integration, and functional testing, improving system reliability and reducing defects before release
- Created and maintained technical documentation for code, modules, and workflows, improving knowledge transfer and onboarding efficiency
- Mentored and supported new team members, accelerating onboarding and improving team productivity
- Optimized code and contributed to technical decision-making, improving maintainability and overall code quality
- Collaborated closely with the team in an agile environment, ensuring consistent progress and alignment on project goals

TECHNICAL SKILLS

</> Languages:
Java, JavaScript, C#, Python
</> Frameworks & Libraries:
Spring Boot, ASP.NET, React, Next.js, Laravel
</> Databases:
PostgreSQL, MySQL, Microsoft SQL Server, Firebase
</> Frontend:
HTML, CSS, Tailwind CSS
</> Backend & Architecture:
RESTful API Design, Microservices Architecture
</> DevOps & Tools:
Git, GitHub, CI/CD (GitHub Actions), TortoiseGit, Docker
</> Testing & Practices:
JUnit, Mockito, Unit Testing, Integration Testing, Technical Documentation
</> Security & Performance:
Spring Security, JWT Authentication, Redis Caching
</> Monitoring & Observability:
Grafana, Prometheus

CERTIFICATIONS

- Alliance Jumpstart Program – Alliance Software Inc. | 2024
- IT Passport Passer - Philnits | 2025
- Ultimate React Course (React, Next.js, Redux) – Udemy | 2026
